Metals,
10 BURLING SLIP,
P. O. Box 8708.

RG104 E-1 Box 144 Feb-Mar 1887

New York, March 28th 1887.

433
I am Sir Esqr.
Capt of U S Mint of
Philadelphia Pa
Dear Sir!

You were pleased to send me a 5th Coppernickel blank on Feby 28/87. which I sent to our factory in Westfalia. and as it may interest you to learn what they have to say about this sample, I beg to give you a translation of it: to wit.

The sample you sent of Copper Nickel, is so imperfectly made, that it would certainly be rejected by our German mints. One corner is sharp the other round & the surface is altogether too rough. -

Very respectfully
W. Paulsen
